

Statewide Detoxification and Residential Addiction Services

Life Spring Inc. and Regional Mental Health have been selected to provide statewide detoxification and residential addiction services for individuals with substance use disorders.

Consumers referred for treatment must have a diagnosis of a substance use disorder or a co-occurring disorder as determined by the Diagnostic and Statistical Manual of Mental Disorders current addiction and level of care is based on an ASAM level of care criteria which is based on client need. Both programs are designed to offer a maximum of five days in detoxification and thirty days of residential treatment. Detoxification and residential addiction services are available for adults at or below 200% of the federal poverty level and are based on individual need and diagnosis. There is no direct cost to the consumer; however, the consumer or referring agency is responsible for round trip transportation to and from the program. Consumers must supply their own medications for medical conditions.

Life Spring Inc. and Regional Mental Health will make the final decision on consumer eligibility, level of care, and length of stay in treatment.

Both providers will communicate availability of detoxification and residential addiction services to diverse referral agencies in all 92 counties and work together to ensure access to services in a timely manner. The services to be provided at both agencies are designed to support recovery, consumer self sufficiency, decision making, and empowerment.

Life Spring Inc. will begin accepting referrals for detoxification and/or residential addiction service on May 2, 2011. The referral/intake number is (812) 206-1642

Regional Mental Health Center will begin taking referrals for detoxification and/or residential addiction services on May 9, 2011. The referral/intake number is (219) 769-4005. At the recording, the caller will then press 2.
